Associate Degree (D3) graduate in Informatics Engineering from Universitas Sebelas Maret (UNS), with experience as a Junior Full-Stack Developer focused primarily on frontend development. Experienced in building responsive and user-friendly web applications using React, Vue.js, Tailwind CSS, Bootstrap, Laravel, and Inertia.js. Possesses working proficiency in React and is capable of using it to build modern, modular web interfaces integrated with REST APIs. Skilled in frontend development, frontend–backend integration, MySQL and PostgreSQL database management, and API testing. Able to collaborate effectively within development teams to deliver structured, efficient, and user-friendly web solutions.

EDUCATION

D3 Teknik Informatika, Universitas Sebelas Maret (UNS) August 2023 – 2026

- IPK: **3.91 / 4.00**

EXPERIENCE

Front End Developer (Intern), BKPSDM Surakarta February 2025 – July 2025

- Developed the user interface for the AKPK ASN system using modern web development frameworks.
- Worked across full-stack development without external API integration, focusing on optimizing the system's interface and internal functionality.
- Designed application pages in accordance with government e-Government design standards, ensuring usability and accessibility for civil servants.

Front End Developer (Intern), GMEDIA PT Media Sarana Data Agustus 2025 – Januari 2026

- Developed responsive web interfaces based on business requirements using Vue.js and Tailwind CSS.
- Implemented frontend–backend integration using Laravel and Inertia.js.
- Collaborated with backend developers in developing booking and data management features.
- Optimized user interface performance and user experience for a commercial web application.

Software Developer (Intern), Solutionlabs Grup Indonesia January 2026 – February 2026

- Contributed to the initial analysis and development of Agreema, a web-based digital contract management system implementing the Contract Lifecycle Management approach.
- Designed the Template and Contract Management Module, covering contract categories, DOCX-based contract templates, dynamic contract fields, and contract creation workflows.
- Collaborated remotely with the development team using an Agile workflow, including requirements reviews, design evaluations, technical discussions, and project documentation.

PROJECTS

Agreema – Digital Contract Management System January 2026 – July 2026

Final Project, Universitas Sebelas Maret

- Developed the template and contract management module for a Contract Lifecycle Management-based application to support the digitalization of corporate contract management.
- Implemented DOCX template import, a contract editor, placeholder-to-field mapping, template metadata management, and template-based contract creation.
- Integrated the React frontend with a Laravel REST API and used MySQL as the application database.

Labara Website – GMEDIA PT Media Sarana Data October 2025 – January 2026
Internship Project, GMEDIA PT Media Sarana Data

- Developed a web-based Hajj and Umrah booking system.
- Built several key features, including booking, booking management, and multi-role dashboards.
- Developed the application using Vue.js and Tailwind CSS, including form validation and data filtering features.

AKPK ASN System – BKPSDM Surakarta February 2025 – July 2025
Internship Project, BKPSDM Surakarta

- Developed a web-based competency assessment and training proposal system for civil servants across 32 organizational units..
- Built several key features, including competency assessments, training proposals, and multi-role dashboards
- Developed the application using Laravel Blade and Bootstrap, including form validation and data filtering features.

ORGANIZATIONAL EXPERIENCE

Emailkomp (D3 Informatics Engineering Student Organization), UNS
Head of Research and Development Division February 2025 – November 2025

- Led two divisions in designing and implementing strategies for digital literacy development and organizational branding.
- Planned, coordinated, and evaluated more than nine work programs focused on creative content development and improving the organization's public image across multiple platforms.
- Prepared development strategy documentation and implementation timelines for divisional work programs.

Research and Data Division Staff February 2024 – December 2024

- Contributed to the development of encyclopedia articles as part of the organization's informative and educational content initiatives.
- Supported the production of the 2024 company profile video for the D3 Informatics Engineering Study Program at Universitas Sebelas Maret.
- Contributed to data collection activities and several internal and external organizational events.

SKILLS

Languages: Indonesian — Native/Professional Proficiency; English — Basic Proficiency
Technical Skills: React.js, Next.js, Astro, Vue.js, Laravel, MySQL, Bootstrap, Flutter
Tailwind CSS, Git, Canva
AI-Assisted Development Tools: GitHub Copilot,Antigravity, Codex
IT Support: Basic hardware/software/network troubleshooting
Soft Skills: Time Management, Discipline, Teamwork, Leadership, and Problem-Solving
